Supporting Statement from parent -

I am a Parent of two children who are currently attending Ripple Primary School, Suffolk site. Hannah Gomez and Sabelle Gomez in years 6 and 4 respectively.

I have a great interest in adding value to the schools progress by making regular positive contributions to the schools as a parent governor.

I am a customer service manager in my substantive employment with 14 years of experience. I am also a graduate from Westminster University in Management. I would like to bring my wealth of experience in Education and employment to support the Head Teacher and his team and Ripple Primary school.

Yours Sincerely, *David Gomez.*

I am putting myself forward as I feel I will have a positive input towards the School as a Parent. Ripple School lacks organisation in preparing and presenting School Sports day, the annual fare and the activity's in playground. I have a good report with other parents of this school and do feel I would be an asset and voice of the Parents. I take a keen interest of my child's education and hopefully could become a part of the schools board of governors.

I wish to be a parent Governor. To promote my services to the school whatever way they require. Making sure all children have the opportunity to learn for the future. Meaning whatever age, race or religion. Everyone is entitled to learn and help each other through difficult times during their lives. Learning can be challenging at times but fun at the some time but can be very enjoyable & rewarding. I love to help those and give back to those who need it. "HELP" can be for certain things in life. But always I find and hear this from my own children. Sacy word but if you think about it promotes the problem where we can rectify it and correct it with means of learning from the source.

As a parent of 2 children at this school and once myself as a student at Westbury centre, I really would like to be involved in making this school a better place for children to come, learn and to have fun.

Over the years I personally have encountered various issues at management level which needs improving.

One of the issues I would like to see improved is the way children are collected after school. At the moment it is so chaotic. Teachers and staff are under so much pressure, making sure the child is collected by the right parent.

I have highlighted this issue few times yet nothing has been done about it. It is about time.

I have been working for my self for the last 23 years in media and press. I work closely with corporate companies and government departments in UK and abroad.

I also served as a president of Barking & Dagenham Chamber of Commerce for 2 years and as an exec board member for 8 years which involved working closely with LBBB chief exec for business related decisions within the borough.

With my media, business and management skills, I would like to share some of those skills and make this school one of the best school in the borough.
